BOOT AND SHOE FACTORY.

"WHY NOT KEEP YOUR MONEY AT HOME."

Did you ever ask your dealer for shoes, made by the Texas Shoe and Leather Manufacturing Co., of San Antonio? Why not? Every shoe they make has their name on it and is guaranteed to be All Solid Leather. They expend their money in Texas; you may get it back. You can well afford to try their goods for yourself and family. They make men's, boys', youths', women's, misses', and children's shoes. The best school shoes in the world. Mechanics, stockmen and farmers, who want a shoe that will keep the feet dry and is the best wearing heavy shoe that can be made, ask for "The Dewey" stamped in the leather on the bottom. The United States government says they are the best shoes for heavy service they can buy for the money. Will you give their goods a trial? Insist on your merchant getting them for you.

COMMISSION MERCHANTS.

Campbell & Urquhart make a specialty of car load lots of grain, flour, mill stuff, hay and salt. They make liberal advances on shipments of all kinds.

THE BEM BRICK COMPANY.

The works of this company were started about a year ago. The clay owned by the Bem Brick company is unique in every respect. Its exact counter part has not yet been found, nor worked in the union. There are no losses in burning a kiln, every brick is saleable. The shale is absolutely free from lime and even the very lightest burned brick from the tops of kilns will not dissolve in water or disintegrate when exposed to the action of the elements.

The Bem Brick company also have a clay which burns a most beautiful golden or straw colored buff, but have not yet gone into the manufacture of these. The so-called "granite" brick, which this company expects to make later on, is an exceedingly handsome product.

The Bem Brick company employs a regular yard force of from 15 to 25 men, outside of teamsters engaged in hauling fuel and brick. The capacity of the plant is 20,000 brick per day of 10 hours. The company now has four kilns, with a total capacity of one million brick and by running a day and night force can easily fill four kilns in a month and have them burned and ready for delivery a month later. The Bem Brick company is strictly a San Antonio enterprise; not a foot of ground nor a dollar of money was asked for from San Antonio citizens to inaugurate the enterprise. The owners went into this on the merits of the product they were going to offer on this market.
